PHP, Laravel

CERTIFICATIONS

Bright Computer Educations– From Jan–2025 to Aug–2025

Full stack Developer Training

- Completed structured training in HTML5, CSS3, JavaScript, Bootstrap, and React JS for front-end development.
- Gained practical experience in Python and Django for backend development and RESTful API creation.
- Worked with MySQL for database design and CRUD operations.
- Built and integrated full-stack applications combining frontend, backend, and database layers.

Tejaskp AI Software– From Sept–2025 to Nov–2025

Intern as Web Application Developer

- Assisted in developing web applications using HTML5, CSS3, JavaScript, Bootstrap, and

OBJECTIVES

To obtain a challenging web development position where I can apply my coding skills, grow in front-end/back-end technologies, and contribute to building engaging user experiences.

EDUCATION HISTORY

Bachelor of Computer Applications, 2013 – 2016

Hemchandracharya North Gujarat University

Shri. C. J. Patel College of Computer Studies

WORK EXPERIENCE

Full Stack Developer – MERN Stack, Tejaskp AI Software, Dec 2025 – Till date

- Designed and developed responsive web applications using HTML5, CSS3, JavaScript, Bootstrap, and React JS.
- Built secure and scalable backend services using Python and Django (REST Framework).
- Implemented database design, CRUD operations, and data optimization using MySQL.
- Integrated frontend and backend through RESTful APIs and managed state efficiently in React.

Administrative Systems & Operations Executive

Trishula India | Dec 2020 – Nov 2023

- Worked extensively with business software systems, managing data entry, validation, reporting, and operational workflows.
- Supported international marketing operations through structured digital documentation and process automation.
- Prepared and maintained digital forms, records, and process documents, ensuring accuracy and

React JS.

- Supported backend development with Python and Django, including API integration.
- Worked with MySQL for basic CRUD operations and data validation.
- Collaborated with senior developers on application flow, debugging, and optimization.

PROJECT EXPERIENCE

FolioNest – Portfolio Builder

Tech: React JS, HTML5, CSS3, Bootstrap, Python, Django, MySQL

- Built a portfolio builder allowing users to create and manage professional portfolios.
- Developed responsive UI with React and implemented backend APIs using Django.
- Used MySQL for storing portfolio and user data.

AutoZen – Car Management System

Tech: React JS, JavaScript, Python, Django, MySQL

- Developed a car management system to manage vehicle, service, and customer records.
- Implemented CRUD operations and API-based frontend-backend integration.

Amidhara Borewell – Service Website

Tech: HTML5, CSS3, JavaScript, Bootstrap, React JS

- Created a responsive business website for borewell and pump services.
- Implemented service pages, contact forms, and optimized UI for performance.

standardization.

- Assisted in basic software operations, system troubleshooting, and user-level technical coordination.
- Applied Kaizen and 5S methodologies to improve process efficiency, documentation flow, and operational consistency.
- Collaborated with cross-functional teams, strengthening analytical thinking, process optimization, and system understanding.

Front Desk & Systems Support Executive

Samarth Diamond | Jun 2017 – Oct 2019

- Handled daily software-based operations, including data management, form processing, and system coordination.
- Drafted structured digital forms and maintained operational records using computerized systems.
- Acted as a mentor and process support resource, assisting team members with software usage and workflow clarity.
- Supported technical and system-related queries at an operational level, ensuring smooth business continuity.
- Participated in Kaizen and 5S audits, reinforcing discipline in system processes and documentation accuracy.
